EDUCATION

University of Michigan

Bachelor of Science in Computer Science, Minor in Entrepreneurship

May. 2028

Ann Arbor, MI

TECHNICAL SKILLS

Languages: Typescript, Java, C, C++, C#, Python

Frameworks: Next.js/React, TailwindCSS

Backend: Node.js, Bun, PostgreSQL, Mongo, Prisma, Express, Hono, tRPC

Tools/Other: Git, Docker, Azure, Google Cloud, Stripe

EXPERIENCE

Software Engineer Intern

Method Financial

May 2026 – Present

New York City, NY

- In progress...

PROJECTS

Kodisc | *Next.js, Azure, PostgreSQL, Prisma, Websockets, Stripe, Python, Docker* **Jan 2025 – Present**

- Developed a full-stack AI-driven **video generation and editor**, supporting **3,000+** users across **20+ schools**.
- Built a public API platform to render videos in the cloud.
- Reduced errors rates by **80%** with a **RAG pipeline** and curated a dataset of **2,000+** code snippets and **1,000+** pieces of documentation.

Draft1 | *Next.js, Azure, PostgreSQL, Prisma, Websockets, Stripe, Docker* **Dec 2024 – Present**

- Launched an **AI-powered** college admissions platform offering **10+ tools** that helped students gain admission to **Stanford, Notre Dame, UMich, and other top schools**.
- Design a consultant dashboard with **Google Suite and Calendly** integrations, streamlining client management.

Radium | *Java, OpenGL, ImGUI, Python, Express.js* **Nov 2021 – Jun 2023**

- Engineered a lightweight 3D game engine with **real-time rendering**, advanced lighting, physics, shader support, and **Python scripting**.
- Optimized rendering pipeline to sustain **200+ FPS** with **1,000+ draw calls/frame** on mid-range hardware.
